Peak Season Wedding Special Offer

We have thought carefully about how to provide affordable weddings at South Farm in response to the economic downturn which is placing so many budgets under strain. Putting on fabulous bespoke weddings on summer weekends where every detail is special and individual is the ultimate dream, but the costs are significant. A great deal of time goes into marketing and planning these events and on the day we typically clock up well over 200 hours of staff time, a lot of it on overtime rates.

By standardising our offer we can streamline our efforts and cut out a lot of cost. On that basis we have devised a series of Mid-Week Wedding Special Offers. These give couples all the benefits of a Wedding at South Farm without the costs involved in providing tailor made programmes.
