Frequently Asked Questions

How big are the letters?

The letters are all 5ft tall (1.5m).

Are they safe?

Yes! We use cabochon lighting which does not heat up like normal lightbulbs so they are completely safe. Each letter is individually wired and fully PAT tested.

I want to put the letters outside - is this possible?

Yes! We do offer an option for outside use. Just ask when you make your booking.

Does the price include delivery & collection?

No, the price shown is for the hire of the letters.

Do you deliver the letters?

Yes, we offer the option to deliver the letters to you. Once we have your venue postcode we can advise of this cost.

Can I collect the letters?

Yes, we offer the option for you to collect the letters from us. We are based in Markyate, Hertfordshire.

How long can I hire the letters for?

We offer a four day hire which covers delivery/collection and your actual event.

Do I need to pay a deposit?

Yes, due to the popularity of the Wedding Letters we do require a booking deposit to secure them for your date. We also take a fully-refundable security deposit at the time of the hire to cover damage to or loss of the letters while they are out on hire.

What do I need to know for on the day whilst I use them?

Each letter is individually wired and comes with a 2m power cable. We also supply a 5m 4 point extension lead to power each letter from one socket.

What are the letters made from?

They are hand-crafted in Nottingham from aluminium.

Are the letters heavy?

No, they're surprisingly light.

Where should I place the letters?

The letters are designed to be placed against a wall or backdrop. This is for the safety of your guests and also because the back of the letters do not look as pretty as the front of them!

Can I purchase your letters?

Not right now. But we will be launching a shop later this year, so if you do have an interest to buy them, please let us know.
